

Windscreen cleaner-concentrate

1:100

Features:

- Highly concentrated cleaning additive for the windshield washer system.
- Rapidly and reliably removes all stubborn dirt such as insects, oily films and waxes
- Creates no stress cracks in modern plastic headlights.
- Streak-free cleaning, which prevents dangerous stray light effects in rain, darkness and backlighting.
- Can also be mixed with commercially available antifreeze agents in winter
- With peach fragrance

Container	Article number:
32 ml	40 27289 00433 4
250 ml	40 27289 00373 3

Areas of application:

For all windshield washer systems

Usage:

To remove heavy soiling, dilute the contents with water in a ratio of 1:100 and fill into the windshield washer system.

To remove light soiling, dilute the contents with water in a ratio of 1:200 and fill into the windscreen washer system.

Note on the use of the 250ml bottle:

Press the bottle to fill the economy dispenser. Add the contents to the windshield wiper water. In case of heavy soiling, mix with 2.5 liters (corresponds to mixing ratio 1:100) in case of light soiling with 5 liters of water (corresponds to mixing ratio 1:200).

Important notice - non-compliance may lead to damage!

Our products are intended for the specified areas of application. If the user wishes to use our products for other purposes, he must check whether the product is suitable and approved for that use. We can only provide a guarantee for the stated specifications. Specifications are subject to change. When we disclose certain examples of use for our products, these may have been carried out in controlled environmental conditions - therefore the results may be different in a different, individual environment. Contact us if you have any questions about the products and application examples! When using, storing and disposing of products, the legal and official regulations, our specifications and the manufacturers' specifications must always be strictly observed. Read the instructions for use, operation and maintenance particularly carefully. Danger warnings must be strictly followed. If the products are handed over to third parties, they must be informed accordingly and the documents belonging to the product, such as manuals, data sheets and hazard warnings, must be made available to them.
