

## CERAMIC SPRAY

A metal-free high temperature spray

### Features:

- A specially micronised white assembly paste made out of solid lubricants in a thermally stable synthetic oil
- A high release lubrication effect on sliding surfaces placed under extreme load
- White, soft, mineral oil free and metal free
- A high lubrication effect
- Has an extremely high pressure absorbing capacity
- No sliding back at creeping speeds
- Water resistant, anti-corrosion protective, prevents rusting in fitted joints
- Can also be used where there are factors which cause corrosion
- Easy assembly and disassembly from - 30 °C to +1,450 °C in the dry film

### Areas of application:

- For basic and sole lubrication for medium to high temperatures
- Easy assembly and disassembly for spark plug threads (e.g. LM heads), exhaust treatment equipment (catalytic converter), a supercharger, aluminum connections on brake systems
- Avoids running-in damage on sliding bearings, wedge-shaped profiles and screw connections

### Clean assembly on:

- Automatic, electrical, household, office and plastics machines
- Filling and packaging plant
- Paper and textile machines
- Pulling on of fitting/press seats, tracks, guideways and joints

### Usage:

Apply evenly as a thin film. The paste can also be used abundantly.
