

BRAKE SERVICE PASTE

High temperature resistant brake protection paste with a very good and permanent lubrication effect

Features:

- Soft, synthetic, silver-colored multipurpose paste
- Easy to process, metal-free
- Prevents the welding or solid rusting (contact corrosion) of the rim on the wheel hub
- High pressure capacity
- Excellent release effect
- Resistant at high speeds
- Adhesive and absolutely salt and spray water resistant
- Protects against friction and wear
- Prevents corrosion, oxidation and scaling
- No carbon formation at high temperatures
- Temperature range
-40 ° C to +1100 °C

Usage:

Apply the active ingredient with the brush box to the previously cleaned area. Product is immediately loadable because it is applied absolutely solvent-free.

Container	Article number:
400 ml	40 27289 00676 5

Areas of application:

- For basic and thin film lubrication
- To prevent friction and wear
- As a separating lubrication for a reliable, easy disassembly
- For use in mechanical and plant engineering
- For repairs to disc and drum brakes, fittings, flanges, screw and plug connections, guides, slide rails and bearings
- For repairs on high temperature loaded components
- To prevent the rusting or solid welding (contact corrosion) of alloy wheels at the joints between rims and wheel hubs

Important notice - non-compliance may lead to damage!

Our products are intended for the specified areas of application. If the user wishes to use our products for other purposes, he must check whether the product is suitable and approved for that use. We can only provide a guarantee for the stated specifications. Specifications are subject to change. When we disclose certain examples of use for our products, these may have been carried out in controlled environmental conditions - therefore the results may be different in a different, individual environment. Contact us if you have any questions about the products and application examples! When using, storing and disposing of products, the legal and official regulations, our specifications and the manufacturers' specifications must always be strictly observed. Read the instructions for use, operation and maintenance particularly carefully. Danger warnings must be strictly followed. If the products are handed over to third parties, they must be informed accordingly and the documents belonging to the product, such as manuals, data sheets and hazard warnings, must be made available to them.
